

## Ignition Interlock Devices Information:

### Springfield:

Evergreen Ignition Interlock, Inc.  
836 N. Glenstone

Car-Fi  
1600 S. Glenstone

Lifeguard Interlock, Inc.  
2248 S. Campbell

### Fees:

Installation: \$40 to \$80 depending technology of  
Vehicle.

Rent: \$55 per month

Removal: \$35

## **IGNITION INTERLOCK DEVICE REQUIREMENTS: EFFECTIVE JULY 1, 2009**

Effective July 1, 2009 (in accordance with Senate Bills 930 and 947), Missouri will require drivers with more than one alcohol offense to have an Ignition Interlock Device (IID) installed on any vehicle they operate. This will also apply to drivers who are not reinstated prior to July 1, 2009, regardless of when their alcohol offenses occurred. All drivers are responsible for installation and maintenance costs of the device.

### **WHAT IS AN IGNITION INTERLOCK DEVICE (IID)?**

An **Ignition Interlock Device (IID)** is a handheld breath-testing device that is connected to the vehicle's ignition, horn, and headlights. To start the vehicle, a driver must breathe into the device without registering a blood alcohol concentration (BAC).

### **GENERAL REQUIREMENTS**

- Individuals with more than one alcohol offense on their driving record, must have an IID installed prior to:
  - reinstatement of their driving privileges **OR**
  - issuance of a Limited Driving Privilege (LDP) or Restricted Driving Privilege (RDP).
- The IID must be maintained for **six months** following the reinstatement date, and the driver is required to report to a certified IID vendor (see below) each month for maintenance to ensure the device is working properly.
- Failure to maintain the device during the six-month period will result in a re-suspension of driving privileges. The applicant will then be required to have the device serviced/installed, send proof to the Driver License Bureau, and pay a \$20 reinstatement fee before driving privileges can be reinstated.

**NOTE:** In addition to the driver licensing requirements explained above, a court may impose other requirements, such as a period longer than six months. If a driver is convicted for failing to have an IID installed as required by law, their driving privilege will be revoked for one year. A second offense requires driving privileges to be revoked for five years.

### **DEVICE INSTALLERS**

- The IID installed must be certified and approved by the Missouri Department of Transportation (MoDOT). The installer of the device will notify the Department of Revenue after installation has been completed, or upon any failure to maintain the device.
- For a list of approved ignition interlock devices and installers, visit [www.modot.gov/safety/ImpairedDriving.htm](http://www.modot.gov/safety/ImpairedDriving.htm) or contact Missouri Department of Transportation at 800-800-2358.
